Dear Parents and Carers,

Re: Information Evening to discuss the proposed new weekly structure model.

You recently received a letter seeking your feedback on the proposed new week structure for September 2018. This may be that you are happy with the proposal but as I haven't received a great deal of response to that letter I am now inviting you to an Information Evening next week on **Thursday 3rd May 2018 at 5pm-6.30pm** to discuss the proposed model with you personally.

The Information Evening will provide you with a further opportunity to find out more about the proposed change and to let you have the chance to put forward any questions or concerns that you may have relating to the new structure. At Wapping High we will always welcome your views and comments and remain fully committed to involving you in this and any other key future developments.

The table below shows the proposed weekly structure from September 2018 and includes more information now as to how the new model supports and improves the learning experience here at the school.
