

## **Buying a Chromebook**

**05 June 2020**

Dear Parents and Carers,

Wapping High School is committed to developing 21st Century Learners: confident, collaborative, independent and digitally literate young people who are equipped for future study and work in the modern world. The student 'Buy Your Own Chromebook' (BYOC) scheme is designed to give our students access to the learning tools and online resources that can help develop their potential. One of the key objectives of the scheme is to provide each student with their own high quality and robust device that will enable them to access the learning environment and applications that will engage and motivate them to take ownership of their learning. Also during the current pandemic because of technology set up at the school and this scheme, teaching and learning was able to accelerate from day one of the lockdown. Therefore we strongly recommend all of our students to go ahead and have their own chromebook.

We have worked with the creators of the scheme to provide you with a very competitive offer of owning a Chromebook, a device that will integrate with the learning tools that we are providing at Wapping High school. The devices come with insurance, warranty and protective casing. Through our buying power and dealing with the IT provider directly, we have achieved significant savings against standard retail prices.

What we are suggesting to parents is for you to commit to a fixed, monthly payment that will provide your son/daughter with a personal device that they can use at home and at school. This package will also include all the necessary insurance and warranty costs. Please follow the instructions on the leaflet to select the equipment.

Parents have had the opportunity to buy Chromebooks before and many have now bought a Chromebook for their child. The portal to buy a Chromebook is open now and the deadline to purchase is 10th July 2020.

Please see the attached leaflet for more information about the device and how to make an order. If you need any assistance placing an order please contact me. I will be more than happy to explain the scheme to you and offer any advice or assistance. Mr Muruts at Wapping High School on the main school number or via email at: [yousefmuruts@wappinghigh.org](mailto:yousefmuruts@wappinghigh.org).

Yours faithfully,

Yousef Muruts  
IT Network Manager
